SUMMARY

Product Manager who diagnoses the bottleneck before choosing the fix. 6+ years of product experience across B2B SaaS, enterprise software, and IoT products, including AI-powered features. Chose coaching intelligence over added acquisition spend, PRDs over rushed builds, and workflow redesign over new headcount, decisions that drove acquisition up **30%**, feature engagement up **35%**, and paid conversion to **4.3%**.

SKILLS

Product Management: Product Strategy, Product Discovery, Roadmapping, Product Requirements Documentation (PRD), MVP Definition, Feature Prioritization (Value vs. Complexity), Pricing Strategy, Go-to-Market Strategy, Product-Led Growth (PLG), Success Metrics Definition

AI Product Management: Generative AI, LLM Applications, AI Workflow Automation, Prompt Engineering, Recommendation Systems, AI Feature Development, AI-Assisted Document Review

Execution: Agile, Scrum, Sprint Planning, Backlog Prioritization, User Story Writing, Release Management, Cross-Functional Stakeholder Management, SLA & Turnaround Monitoring

Analytics: SQL, Conversion Rate Optimization, Retention Analysis, A/B Testing, Funnel Analysis, Engagement Analysis, KPI Tracking

UX & Research: User Interviews, Surveys, Persona Development, Journey Mapping, Usability Testing, Wireframing, Figma

Tools: Jira, Confluence, Notion, Slack, Wrike

EXPERIENCE

Sportstech

Bangalore

Product Manager

Sep 2025 – Present

Consumer IoT subscription platform — 174K+ freemium users, 12.4K+ paid subscribers.

- Spotted a plateau despite steady traffic, backed AI-enabled coaching over generic promotions, raising new user acquisition by **30%**.
- Took Smart Gym from 0→1, owning customer research, MVP definition, roadmap, and launch while aligning hardware, mobile, design, and engineering teams for a **174K+** user base.
- Developed the recommendation strategy for an AI coaching engine using workout data, increasing session completion by **22%** and daily active users by **22.4%**.
- Reframed strong activation but weak monetization as a paywall-timing problem, running experiments rather than buying more traffic, reaching **4.3%** paid conversion and **96.8%** renewal retention.
- Owned the roadmap for connected-device features, coordinating engineering and design across mobile, expanding subscribers **81.9%** YoY via multi-device pairing and one subscription across equipment.

GetAI (ITC Infotech)

Bangalore

Product Manager

Apr 2024 – Sep 2025

Enterprise operations platform for manufacturing and contract management.

- Identified unreliable plant connectivity and slow contract checks as bottlenecks, shipped an offline-first logging app (IOMS) lifting feature engagement **35%**, plus AI drafting and LLM-based clause review adding **20%** active usage.
- Traced slipped deadlines to missing acceptance criteria, wrote PRDs and rollout plans before development began rather than after, achieving **95%** on-time release completion.
- Found staff compiling adoption data by hand, launched analytics dashboards in place of ad hoc reports, cutting reporting turnaround by **40%**.

VS Happy Infotech

Bangalore

Product Manager

2022 – Mar 2024

Project Team Manager

Feb 2020 – 2022

US financial services platform. Promoted to Product Manager in 2022.

- Diagnosed loan onboarding friction through customer feedback and usage data, redesigned the funnel instead of patching steps, improving NPS by **20 points** and lowering churn by **20%**.
- Pinpointed redundant handoffs slowing the loan cycle, redesigned the workflow rather than adding support staff, shortening time-to-value from **14 to 6 days**.

- Observed inconsistent execution across 10+ initiatives, standardized PRDs in place of informal specs, strengthening delivery alignment across squads.
- Noticed SLA misses were caught only after the fact, built SQL dashboards instead of weekly spreadsheet reviews, trimming reporting effort by **30%**.

PRODUCT EXPERIENCE

Glide — Travel Super App (0→1 Product Build)

Independent build — sole product owner from concept through prototype validation.

- Mapped the travel booking journey through user interviews, surfacing pain points across visa, flight, hotel, and transport steps.
- Defined the MVP roadmap and go-to-market plan, prioritizing checkout unification over building every booking vertical first.
- Wrote the PRD translating research into first-release scope, sequencing features by value-vs-complexity trade-offs.
- Designed a unified cart and checkout in place of separate flows per vertical, reducing booking steps by **40%**.

EARLY CAREER EXPERIENCE

Quality Control Inspector, Apave International

Apr 2019 – Dec 2019

Ops Planning & Control Apprentice, BHEL

Mar 2018 – Mar 2019

Site Engineer, Essar Steels

Jun 2017 – Feb 2018

EDUCATION

BBA — Bharathidasan University

DME — GPTC, Trichy

CERTIFICATIONS

Product Management — Great Learning

Digital Product Management — University of Virginia

Google Project Management — Coursera
